Education

Purdue University

B.S. Web Programming & Design · Minor in Computer Science · Entrepreneurship & Data Science Certificates

West Lafayette, IN

Expected May 2027

GPA: 3.8 | Relevant coursework: Data Visualization, Computer Science in C, Internet Foundations

Study Abroad: Statics coursework at Purdue University in Prague, Czech Republic

May 2024

Experience

Parsons

Software Developer Intern

St. Louis, MO

Summers 2025 & 2026

- Transformed an object-detection tool from the prior summer into a standalone, customizable React product, taking it from an internal prototype to a version deployed to production by the internship's end.
- Built new backend routes in a C++ codebase on a 10-person team, adding the ability to connect to new virtual machines and expanding what users could configure.
- Designed mockups for 6+ pages in Figma and built the production UI in React from team feedback.

Freelance

Web Developer

West Lafayette, IN

Oct 2024 – Present

- Designed and built responsive websites for 3 early-stage startups — Translunar, Synchroni, and Nightline — owning each project from initial design proposal through development and launch.
- Built a React marketing site and mobile app for Nightline, a React site for Translunar to strengthen its funding pitch, and a Framer site for Synchroni.

Purdue Academic Success Center

Supplemental Instruction Leader

West Lafayette, IN

Jan 2025 – Dec 2025

- Facilitated weekly study sessions for ~15 students per semester in ME 270 and CS 159, reinforcing core concepts and helping students build effective exam-preparation strategies.
- Designed and led collaborative problem-solving activities each session, helping attendees raise exam scores and course grades.

Purdue Center for Career Opportunities

Web Developer

West Lafayette, IN

Mar 2025 – Oct 2025

- Proposed the design direction and led the full redesign of the CCO website — supporting 5,000+ monthly users — transforming a dated interface into a modern, responsive React application with improved navigation and usability.

Leadership & Activities

Embedded Systems at Purdue

Project Manager — VibeClone

West Lafayette, IN

Aug 2026 – Present

- Co-lead a 12-student team using AI to clone and improve existing software, directing scope, delegation, and production.
- Run weekly teaching sessions on AI prompting, Git, and React fundamentals to upskill the team and accelerate delivery.

Web Services Director

Jan 2026 – Present

- Direct upkeep and enhancement of the club website and onboard a ~3-person team to delegate tasks and grow traffic.

Purdue Women's Ultimate

President

West Lafayette, IN

Jun 2026 – Present

- Lead a board of ~10 officers and the organization of a 20-team tournament hosted on Purdue's campus, coordinating field scheduling, venue logistics, officiating, communication with Recreation facilities, and finances.

Treasurer & Student-Athlete

Jul 2024 – May 2026

- Managed a ~\$20K annual team budget and finances over two years while competing as an athlete in tournaments across the US.
